In the Matter of:

PURCHASED WATER ADJUSTMENT OF)
ELKHORN WATER DISTRICT)

CASE NO. 99-024

O R D E R

On January 21, 1999, Elkhorn Water District ("Elkhorn") applied for approval to adjust its rates pursuant to the purchased water adjustment procedure. KRS 278.015 and 807 KAR 5:068.

The Commission, having reviewed the record and being sufficiently advised, finds that:

1. Elkhorn purchases its water from Frankfort Electric and Water Plant Board ("Frankfort").
2. Frankfort increased the wholesale water rate charged to Elkhorn from \$1.30 per 1,000 gallons to \$1.363 per 1,000 gallons purchased effective January 10, 1999.
3. During the 12 months ending November 30, 1998, Elkhorn purchased 69,734,300 gallons of water and sold 65,961,000 gallons.
4. The increase in the cost of purchased water is \$4,393.26, resulting in a purchased water adjustment of \$0.07 per 1,000 gallons of water. Based on a monthly usage of 5,000 gallons, the average bill of an Elkhorn customer would increase \$0.35 from \$21.06 to \$21.41 or 1.7 percent.

5. The calculations and proposed tariff provided by Elkhorn are correct and should be approved.

6. The purchased water adjustment of \$0.07 per 1,000 gallons and the rates in Appendix A, attached hereto and incorporated herein, are fair, just, and reasonable and should be approved.

IT IS THEREFORE ORDERED that:

1. The purchased water adjustment of \$0.07 per 1,000 gallons and the rates in Appendix A are approved for services rendered on and after January 10, 1999.

2. The tariff submitted by Elkhorn is hereby approved as filed.

3. Within 20 days from the effective date of this Order, Elkhorn shall file a copy of the notice to its customers and verification that such notice has been given.

Done at Frankfort, Kentucky, this 16th day of February, 1999.

To the Commission:

Case 99-024

The Elkhorn Water District respectfully requests that the Commission allow us to make an adjustment in our rates in accordance with 807 KAR 5:068 Purchased Water Adjustment Clause.

The District purchased 69,734,300 gallons from December 1997 to November 1998. The District sold 65,961,000 gallons to its customers. The effective cost of purchased water was \$1.30 during the test period. With the wholesale increase by the Frankfort Electric & Water Plant Board the new cost is expected to be \$1.363, making the total new cost \$95,047.85. The difference between the old cost and new cost is expected to be \$4,393,26; the incremental cost in terms of water sold is \$.07 per 1000 gallons. We propose to raise each gallonage block that amount.

The following documents are enclosed:
